Before the mountains could lift their heads
D Bm A
Before the stars drew their first deep breath
D D/F# G D/F# D
Before the ocean embraced the golden shore
A/C# Bm G A D
Jesus, You were there as the world was born

Incarnate God emptied out for us
You took on flesh and were clothed in love
Just a touch from Your hand restored our sight
Jesus, at your voice we were brought to life

G D
Oh, the beauty of your face
G A
Just a glimpse and we are changed
G A Bm
Drawn by love and wrecked by grace
A D
Come Lord Jesus take Your Place

O Lamb of God pierced to make us whole
The weight of sin was a crushing load
A man of suffering who knew our deepest hurts
Jesus, such a gift we could never earn

REPEAT CHORUS

Exalted now, Savior, you will reign
With Saints and angels to shout Your name
The hallelujahs we sing will never end
Jesus, we can't wait till you come again
Jesus, we can't wait till you come again

REPEAT CHORUS REPEAT CHORUS
